TraumaTALKS are now available
virtually for educators and

for details to bring a virtual TraumaTALK to
your school district, or any faith-based,
community or civic organization working
with children.

TraumaTALKS provide an overview of childhood trauma with the latest academic knowledge against the backdrop of Shawn's inspirational story. *Anticipating trauma to be another unfortunate effect of the pandemic, this talk is designed specifically for educators and professionals working with children to help them better understand the science behind the emotional reactions to trauma, how to recognize its symptoms, and why it's critical to help children heal.*
